

How do you intend to bring more Jobs back to Detroit?

1. Create a new industry infrastructure that is independent from fossil fuels or oil.

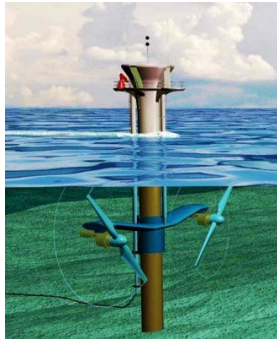

a. Build an Electricity Generation

Facility which uses Wind

Generators and Tidal Stream

Generators installed along the

Detroit River.

b. **85% Ethanol** Build an Ethanol Biorefinery Facility

c. Commission the manufacture and selling of “Plug-In Electric Vehicles” and installation of vehicle charging stations throughout the city and select suburban areas such as malls, movie theaters, hotels/motels, parks, and other entertainment venues.
